

PROTOTYPING

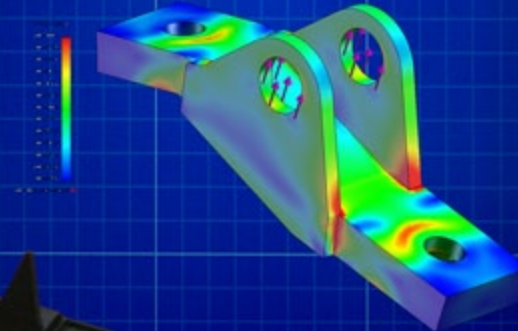

MIND STUDIOS: Product Design
University of Colorado at Colorado Springs

MIND Studios at UCCS offers low cost prototyping solutions to create high quality functional models in metal, plastic, silicon, and other materials.

Let us help you create a presentation worthy prototype or finalize your design to prevent costly manufacturing changes.

For a free quote email us your file or call the studio today!

3D PRINTER

Makes ABS plastic model of any CAD design (FDM)

CNC
Metal Prototypes and molds

CAD
3D Modeling of any design or modify your existing design.

3D CAMERA
3D Scan of any object to solid model

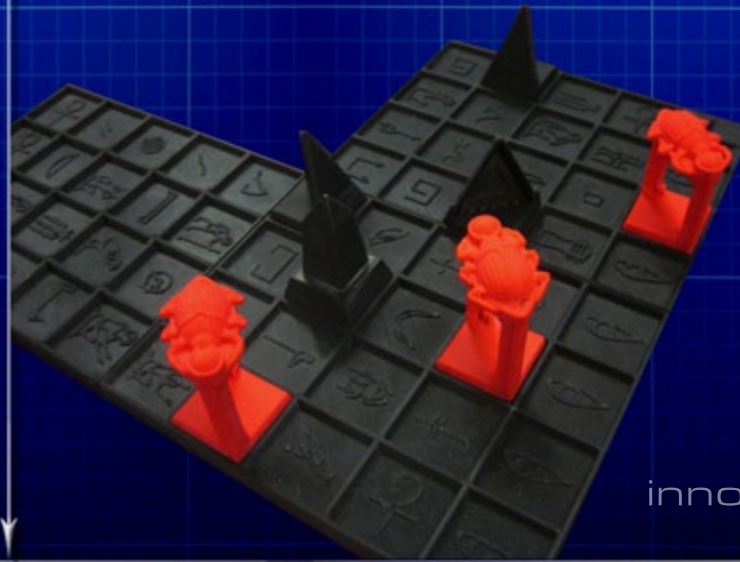

FEA
Failure Analysis
