

FOR RELEASE APRIL 22, 2009

Colorado Springs, CO – April 22— Jabil Circuit, Inc. (NYSE: JBL), today marked the opening of their Colorado Springs office with a ribbon cutting ceremony and an open house. Headquartered in St. Petersburg, FL, Jabil has more than 85,000 employees and 55 facilities in 22 countries.

More than 30 Jabil management and new office employees joined city and other officials at the formal open house of the design offices located on Kelly Johnson Boulevard.

“We are glad to be in Colorado Springs,” said David Wahl, Jabil’s Vice President of Computing and Storage. “This area is strong in the computing and storage arena and we can leverage the local expertise to strengthen our position in the industry. At the same time, we’re here to lend a helping hand to other industries with our design and manufacturing experience.”

The initial emphasis for the 15 person office will be in design and product management for customers. Other capabilities include design assurance, electrical engineering, industrial and PCB design, and mechanical engineering and design.

“We serve customers in a broad range of industries, to bring products to the market faster and more cost effectively by providing complete and worldwide electronic product supply chain management,” said Wahl. “We appreciate the support of the Colorado Springs Regional Economic Development Corporation as we officially open our doors.”

"Colorado Springs is delighted to welcome Jabil Circuit, Inc. as a new member of our corporate community," commented Mike Kazmierski, President and CEO, the Colorado Springs Regional Economic Development Corporation. "We believe that the decision by a global company such as Jabil to locate in Colorado Springs reflects positively on the local business climate and our ability to support their requirements for a skilled technical workforce with expertise in the computing and storage industry."
